**ABSTRACT**

This document represents the required format for manuscript preparation for publication. By having a standardized format of submission, the editor and reviewers can make the assessment process with clarity. This template is to assist the author in familiarizing with the submission format and understanding the function of each section. On writing the actual abstract, it should be between 200 - 250 words in a single paragraph. It should be a concise summary that clearly outlines the paper's rationale, methodology, findings, and contribution. The body text should be presented with justified alignment.

**Keywords:** *Keywords1, Keywords2, Keywords3, Keywords4, Keywords5*

**1. INTRODUCTION**

**HEADING 1 (Align left, UPPERCASE. Bold, Times New Roman 12)**

This template is constructed to assist authors in presenting their work so that it will be easy to be reviewed by the reviewers. Having a standard template will also assist in the eventual publication process should the paper is accepted. Submitting an article that is easier to be read by the reviewer will assist in expediting the review process.

This template was designed such that the author can substitute each section with one's work accordingly and expand it as necessary. It includes samples of referencing and type formatting which is expected when submitting a manuscript in MS Word, which is the only acceptable format. The manuscript must not exceed 10,000 words excluding references and appendices. The manuscript also should meet the similarity index for less than 30%. The body text should be presented in a single paragraph with justified alignment.
